Applicant: Hiromoto II et al.

Appl. No.: 10/544,084

International Filing Date: August 7, 2004

Title: Method for forming thin film and base and having thin film formed by such method

Attorney Docket No.: KON-2020

Pub. No.: 2006/0199014 A1

Pub. Date: September 7, 2006

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on September 15, 2006, for the above-identified application.

The request is DISMISSED.

Applicant requests that the application be republished because the title of the application is incorrect.

37 CFR 1.221 (b) is applicable “only **when the Office makes a material mistake which is apparent from Office records....** Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable.” A material mistake must affect the public’s ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.<sup>1</sup>

The title in the publication is not an error of the Office. The title in the published application is a direct republication of the WIPO application publication WO 2005/007927 A1 for PCT/JP2004/010085. The title of the invention has not been amended by a preliminary amendment.

Applicant is reminded of his duty to conduct a reasonable inquiry before filing a paper before the Office. See MPEP 410.

---

<sup>1</sup>Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

Applicants' request for a corrected patent application publication on September 15, 2006, may constitute a "failure to engage in reasonable efforts to conclude processing or examination of the application." See 1.704(c). This determination will be made on or after a mailing of a Notice of Allowance.

Furthermore, applicant is advised that a change in title in the instant case is not considered material. The interpretation or understanding of the application to one of ordinary skill in the art would not be affected by the title. See MPEP 1130.

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221 (a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18 (d) and the processing fee set forth in § 1.17 (i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18 (d) will be refunded. The processing fee will be retained.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a "Pre-Grant Publication" and questions or request for reconsideration of the decision, should be addressed as follows:

By mail to: Mail Stop PGPUB  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, Va. 22313-1450
